

**The New York State Department of Health is requiring that all visitors present a negative COVID test result during the duration of the Omicron outbreak.**

**Options include a rapid test done within 24 hours or a PCR test done within 48 hours of your visit. If you choose a home rapid covid test you must bring a photo of the test result and it must include your name and date test was taken.**

**You are required to wear a well fitting surgical mask at all times during your visit.**

**At Kings Harbor Multicare Center we follow the core principles of infection control and prevention. We are committed to doing whatever it takes to keep our residents, staff and all visitors safe.**

**Thank you so much for doing your part in making sure all measures are taken to prevent or lessen the spread of COVID -19.**
